 Mohamed Khaled | mohamed-khaled-xv

EXPERIENCE

- **ITI (Information Technology Institute)** *Jun 2024 - Aug 2024*
  PHP Developer internship New Administrative Capital , Egypt
  - Mastered client-side technologies (HTML, CSS, JavaScript) to build responsive and interactive user interfaces.
  - Developed skills in MySQL for database management, SQL queries, and data handling.
  - Gained proficiency in PHP for server-side scripting and dynamic website development.
  - Learned the basics of the Laravel framework, including MVC architecture and API integration, to create scalable web applications.

EDUCATION

- **Ain-Shams University** *Class 2025*
  Bachelor of Engineering, Minor in Computer and Systems Engineering Cairo, Egypt

PROJECTS

- **AI Assisted Holy Quran Mobile App** *2023 – Present*
  React Native, Redux, Google OAuth, SQLite, REST API, Jest []
  - Built a cross-platform Quran app with Mushaf reading, advanced bookmarking, and audio recitation.
  - Added AI-powered speech recognition for feedback on memorization and pronunciation.
  - Supported secure login, dark/light mode, offline storage, and dynamic content via REST APIs.

- **Movie Discovery Mobile App** *2023*
  React Native, Expo, TypeScript, Firebase, SQLite, Axios, TMDB API []
  - Created a movie app with smooth navigation, offline lists, and user authentication.
  - Integrated TMDB API to show movies, cast, and details; used Firebase for user data.
  - Enabled persistent watchlists and favorites using local storage.

SKILLS

- **Programming Languages:** JavaScript, TypeScript, Python, Java
- **Frameworks & Libraries:** React Native, React, Express.js, Redux
- **Database Systems:** MongoDB, SQLite, MySQL, Firebase
- **APIs & Testing:** REST APIs, Postman, API Testing, Unit Testing, Integration Testing, Jest
- **Version Control:** Git, GitHub
- **Project Management:** Jira, Trello
- **Concepts:** OOP, Asynchronous Programming

ADDITIONAL INFORMATION

Languages: Arabic (Native), English (C1 Level)
